TRADE-TEC

SHOWERING RANGE

2021

inta **TRADE-TEC**

Intatec's Trade-Tec collection has been specifically designed and engineered to meet the exacting requirements of the professional installer, offering quick, easy fit and forget solutions that are stylish, affordable, reliable, compliant and more importantly each shower valve has Intatec's proven Anti-scald thermostatic fail safe protection built-in, delivering exceptional performance and safety that your customers will enjoy.

Intatec's Trade-Tec collection offers the highest standards of performance, reliability and service. Our showering product range is guaranteed for five years and Plumbing and Heating range for two years from the date of purchase* when fitted in accordance with installation instructions and best working practice (including local water bylaws).

Intatec Limited has been assessed by BMTRADA and has been granted approval under the terms of the scheme for Quality Management Systems to ISO 9001:2015, ISO 14001:2015 and OHSAS 18001.

INSTALLER DESIGN FEATURES

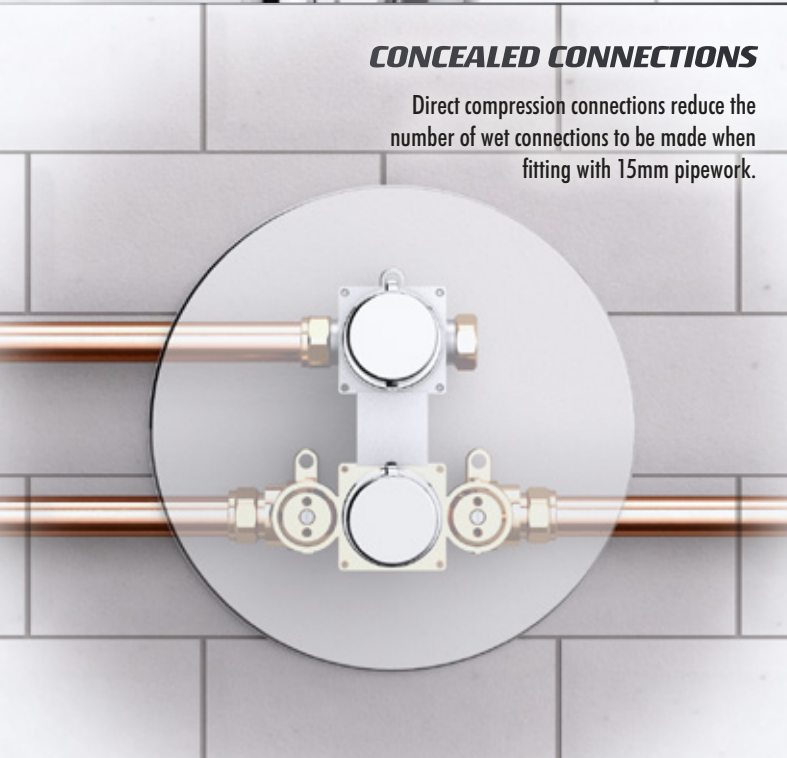

ADJUSTABLE FIXING POINTS FOR RISER

Allows the installer to set fixing centres accordingly for specific installation.

FAST FIX BRACKETS

Provide wall mounting, compression joint and shower connection in one convenient solution.

CONCEALED CONNECTIONS

Direct compression connections reduce the number of wet connections to be made when fitting with 15mm pipework.

INSTALLER HELPLINE

01889 272 199

Dedicated technical helpline for installer support.

APPROVALS KEY

The surface temperature of these products does not get hot during normal use.

The blue anti-scald hand is your assurance that the shower will deliver safe hot water. This means that you can have hot water but the thermostatic cartridge will not allow the water to get hot enough to scald.

Valves have been accredited TMV2 approval from NSF certification where you see this logo.

Products with this logo are WRAS Approved and have undergone mechanical and water quality testing to comply with the Water Fittings Regulations.

TRADE-TEC BAR SHOWER

- Quality stainless steel housing.
- 15 year manufacturer's warranty.

Taking charge of your limescale

As the water flows through the ActivFlo the natural conductivity of the water causes the metals to react with each other, generating an electric field on the surface of the patented alloy. This electrical field causes the calcium and bicarbonate ions to precipitate from the water forming an insoluble microscopic calcium carbonate crystal called aragonite.
