

Non Concussive Basin Mounted Push Taps

**non concussive
operation
providing a
water saving
solution**

Introduction

The Inta range of wall and basin mounted push taps are designed for use with the Intamix range of thermostatic mixing valves. With manual operation, the tap functions for a period of time and then closes automatically. This operation makes the tap ideal for use in unsupervised areas such as sports changing rooms and washrooms. It is also perfect for use as a water economy device. The simple operation of the push tap enables users with limited dexterity to use the facility.

- Multi directional toggle lever for users with limited dexterity
- Simple non concussive operation
- Reduces waste water
- Vandal resistant
- 5ltr flow regulator options available
- 15 seconds run time @ 1 bar

Product Range

Description	Code
Multi directional vandal resistant basin mounted tap (single)	NC200CP.1
Multi directional vandal resistant basin mounted tap (single) 5 litre per minute	NC200CP5.1

Non Concussive Basin Mounted Push Taps

Technical Specification

Max Inlet Pressure	10 Bar
Min Inlet Pressure	0.2 Bar
Max Inlet Temperature	65°C
Timed flow (standard)	15 seconds at 1 bar
