

## Non Concussive Wall Mounted Push Taps

### Introduction

The non concussive range of wall and basin mounted push taps is designed for use with our range of thermostatic mixing valves. With manual operation the tap functions for a period of time and then closes automatically. This operation makes the tap ideal for use in unsupervised areas such as sports changing rooms and washrooms. It is also perfect for use as a water economy device. The simple operation of the push tap enables users with limited mobility to use the facility.

Available in standard and contemporary styles the push tap is safe, reliable and reflects the quality of the range of total washroom solutions.

- Simple Operation
- Closes Automatically
- Water Economy
- Non Concussive Operation
- Operating Pressure Range 0.5 - 5 Bar

### Product Range

Description	Code
Non Concussive Wall Mounted Tap (Pairs)	NC170CP

## Non Concussive Wall Mounted Push Taps

### Features

Technical Specification

Max Inlet Pressure	10 Bar
Min Inlet Pressure (Dynamic)	0.5 Bar
Max Inlet Temperature	65°C
Timed Flow (Standard at 20°C)	15±5 seconds at 1 bar
