### Introduction

Water conservation is essential and in some public establishments where multiple water outlets are used, the Inta range of Time Flow Control systems are an eco-friendly, stylish and economical solution to the problem of water wastage. All of the Inta Time Flow Controls are designed to work with the Intamix range of the Thermostatic Mixing Valves

- Closes Automatically
- Water Saving Device
- Non Concussive Operation
- Robust Stainless Steel Construction - Grade 316L
- Highly Resistant to Harsh Chemical or Cleaning Agents
- Complies with BSEN816
- Ideal For Heavy Use Environments

### Product Range

Description	Code
Stainless Steel Self Closing Push Button Shower	TF111SS

## Stainless Steel Timed Flow Control

### Features

#### Technical Specification

Max Inlet Pressure	6 Bar
Min Inlet Pressure	1 Bar
Max Inlet Temperature	65°C
Timed Flow	15 seconds at 3 bar
